An interactive training tool to improve officer incident command skills & efficiency

Focus® puts your officers in a virtual reality simulation, enabling them to train and practice their incident command approach. Focus® allows users to draw upon their acquired knowledge and can determine their strengths and weaknesses through competency review.

HIGHLIGHTS

Interactivity:
The user controls the strategic approach by interacting with the application, thus enhancing the learning process.

Realistic scenarios:
The proposed scenarios offer various incident configurations, resulting in a variety of intervention strategies.

Competency review:
Through results analysis and error review, the user is provided with a precise picture of the competencies which must be developed.
